Academic Records & Registration

RE: Winter 2022 and Spring 2023 Schedule Development, Round 2

DATE: August 20, 2022

Schedule Development

We are now beginning the second round of revisions for the upcoming winter and spring master class schedules. Your dean's office will be sending you a spreadsheet which includes the changes you submitted during our first round of revisions.

All new revisions should be done in **red** on the spreadsheet. Please type the word **DELETE** in red in the **Session column** and strike a line through any courses not to be offered. Please do not actually delete or hide courses you are no longer offering from the spreadsheet, or we will not know to delete them. If you wish to add a course, please insert it into the spreadsheet in red and put the word **ADD** in the **CRN column**. **Section notes** are rolled from term to term. They are the notes the students see when they look up the classes. Please review all section notes and make any changes/deletions/additions (deletions are indicated by a strikethrough) in **red**. **Please do not just delete the section notes on your spreadsheet or we will not know to remove them.**

Only courses approved by the University Curriculum Committee **and** the Provost's Office should be included in your schedules. Complete and forward your schedules to your dean's office by September 6, 2022.

Restrictions

Remember, it is possible to place restrictions on your classes, but please use caution as the more restrictions and prerequisites a course/section has, the more permits faculty will have to issue. If you wish to have us place a registration restriction code on one or more of your department's classes, please note the specific restriction in the **Note** section on the spreadsheet.

Setting Courses at "0" Enrollment/Projected Seats

It is recommended that you do not set courses to "0" seats, but understanding that this may, on occasion, be necessary please complete the **Projected Seats** column on the spreadsheet for every course you are offering. This will tell us the maximum number of students you will allow to be enrolled in the course. Your Projected Seats should always be $\geq$ your Max Seats on your courses.

Diversity, Equity and Inclusion; High Impact Practice; and Powerful Pedagogy Course Indicators

We have been asked to maintain a record of those courses that have been approved by the UCC as being Diversity, Equity and Inclusion (DEI), High Impact Practice (HIP) and Powerful Pedagogy (PP). These designations are instructor driven, so only those specifically designated course/instructor combinations will be allowed to be coded in this manner. For these courses, please put a red "**X**" in the corresponding column on the schedule spreadsheets. The current DEI, HIP and PP codes are as listed:

DEI	Diversity, Equity, Inclusion	HIPG	Global Learning	HIPW	Writing Intensive
HIPC	Collaborative Learning	HIPR	Undergraduate Research	PPRP	Reacting to the Past
HIPD	Diversity Learning	HIPS	Service Learning	PPSG	LGBTQ+ Pedagogy

Instructional Methods

Courses whose content is taught between 30-79% online are Blended, and must be approved by the Academic Dean. Web-based courses must have between 80-100% online content, and must be approved by the UCC and Academic Dean. If any of your courses are blended or web-based, please code them with one of the following instructional method codes: "30"=30-50% online, "BL"=51-79% online, "80"=80-99% online, and "OL"=100% online.

Distributing Traditional Lecture Classes in First Priority Lecture Classrooms Throughout the Day

Each semester we have a difficult time finding lecture classrooms for the 9:00 AM – 11:50 AM and 9:30 AM – 12:15 PM times. Many students have difficulty scheduling because so many classes are clustered in the middle of the day. In order to spread classes throughout the day (8:00 AM – 2:50 PM MWF and 8:00 AM – 3:15 PM TR), departments are now required to schedule traditional lecture class times in all of their first priority lecture classrooms before they will be permitted to schedule additional daytime classes in other departments' first priority classrooms. This policy does not apply to labs, studios and other classes requiring special classroom facilities. Questions related to this policy may be directed to your academic dean's office.

Scheduling Monday/Wednesday Classes Using a Tuesday/Thursday Schedule

When departments schedule traditional lecture classes on Mondays and Wednesdays using one hour and fifteen-minute class periods, they prohibit us from using those classrooms for two – 50-minute periods. This being the case, in those rare exceptions, when the deans permit a department to schedule a lecture class on Mondays/Wednesdays, that class must be scheduled after 2:00 PM. This policy does not apply to labs, studios and other classes requiring special classroom facilities. Questions related to this policy may be directed to your academic dean's office.

SCHEDULE DEVELOPMENT TIMELINES – WINTER 2022 & SPRING 2023:

Round 1 - Schedules sent to Deans by AR&R for Distribution	April 18, 2022
Schedules due to Deans from Chairpersons	June 14, 2022
Schedules due to AR&R from Deans	July 08, 2022
Round 2 - Proof to Deans from AR&R for Distribution	August 22, 2022
Corrections due to Deans from Chairpersons	September 06, 2022
Corrections due to AR&R from Deans	September 20, 2022
Schedules available on the Web	October 21, 2022
Registration Begins	November 07, 2022

Thank you for your assistance.
